

Our story;

Basically, we are 2 people attuned with natural products from food items to medicinal herbs.

It all began some 20 years ago when we got involved with the food industry and realized we needed to establish an organic line of “goodies”, thus *Enchanted Valley* was born and under its umbrella very quickly after **Purabella Naturals** with medicinal extracts, *Zhinga* with organic juices and *Bark* with organic dehydrated dog food.

Four years ago, we decided that we had enough of the extremes in the weather, particularly the snow as we were not fans of winter sports. We packed, put the house on the market and drove to Costa Rica with our 2 dogs Remie and Romy and Princess our 16 years old beautiful cat. We opened a small B&B, Casa Yayaz, just under the town of San Isidro de Grecia and after having finished with remodelings, we were introduced by a friend to Dr Juan Tortos. of the clinic Juan Pablo II and Dr. Marvin of Mediplus. Both asked first to try and then to carry our line of Purabella tinctures as a line of natural, alternative products.

With that in mind we began studying the herbs of Costa Rica, Costa Rica being of course an herbal paradise and very soon found that most of the herbs that we used originally in Purabella are here. We had the opportunity to meet an indigenous herbal man of a tribe in San Carlos, another one from Talamanca and an herbalist from Heredia to get familiar with local plants and trees. We also talked to several people that remember the time when their yayaz (grandmothers) would use all kinds of medicinal plants to treat illnesses.

Purabella Naturals was back and alive again! We took it to Dr. Juan and added 2 totally new extracts focusing on allergies and asthma. Early in 2020, Dr. Tortos moved to San Jose, however, this line is now available directly from us in **Casa Yayaz** or we can even arrange a convenient delivery place. We hope that they will be really helpful for you as they were in Colorado for all of us lovers of natural solutions.
